## College of Sciences Undergraduate Research Program -3.3

DepartmentChair.Proposalsare expected to indicate a commitment to the continuation of the undergraduateresearch training opportunities in their degree programs.

## Notes:

- A. Successfubrojects are anticipated to last one year (Summer, Fall, Spring).
- B. If a course is developed the timeline must allow for student registrated innstructional content must be aimed at developing and improving undergraduaterese archskills.
- C. The proposal must include information about the current participation of undergraduates in research, as well as goals forrigating that number. It is important to establish metrics that canbe realistically and reliably tracked.
- D. Some undergraduate students are expected to attend the ODU Undergraduate Research SymposiumeachSpringandto presentaspectsof their work (oral, poster, or exhibit) to the undergraduateattendees. The number of such attendees from the college will be tracked.
